

# BSGS (Bulk Supply Gas System)

BSGS enclosures are designed to maximize safety, lower operating costs, and withstand the rigorous use of hazardous materials.

The enclosures meet all UFC requirements and have special features to ensure that a technician is minimally exposed to gas while performing the operator and maintenance functions.

WAY-WISE TECHNOLOGY CO.,LTD.

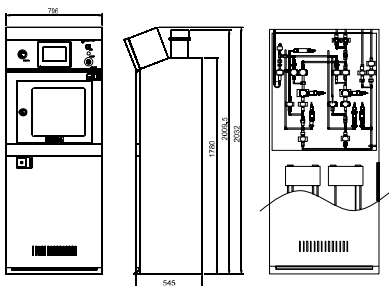

## Type

Bulk Supply Gas System

## Benefits

- Developed large scale gas supply system with high purity
- Save the cost for the gas supply system of customer
- General specification will be same as gas cabinet
- Weight scale and heating block is a option
- Maintain high purity during supplying period of gas continuously

WAY-WISE TECHNOLOGY CO., LTD.

# GAS RACK

---

**Type**

---

One bottle  
The following dimensions may vary depending on gas

---

**Benefits**

---

Applied to inert gases with all the benefits of the box type

---
